References b., c. and d. contain Vienna's instructions to Salzburg regarding identifying Subject; our initial reply stating there was no information in VCP files; and Vienna's permission to run unilateral police traces through GREMIXY-1, respectively.</p> <p>2. GREMIXY-1's initial report (received on 31 October 1961) states that Svenen PODRYILYI - born 2 February 1910 in <u>Uzernassy/Kiev</u>, <u>married</u>, teacher, <u>Ukrainian citizen</u>, resided at the refugee camp in <u>Siezenheim</u>, Salzburg, from 13 July 1950 to 23 August 1950. Prior to 13 July 1950 he lived at the Hellbrunn refugee camp in Salzburg. According to police records Subject left Salzburg for the United States on 23 August 1950.</p> <p>3. Additional information in the form of a photographic copy of the official police registration card and a negative of an identification photograph of Subject, both dated 7 November 1947 reveals that Svenen PODRYILYI - born 2 February 1910 in <u>Przyval</u>, is a <u>Polish citizen</u>, married, teacher, 176 cm tall, gray eyes, blond hair, oval face, no prominent or identifying features.</p> <p>The date on the registration card presumably indicates the date on which Subject was first officially registered by the Salzburg police.</p> <p>4. We are returning to Vienna the photograph sent us under reference b. for their retention. We have also attached the identification negative noted in the preceding paragraph. Would Vienna please make prints for SR and Paris and attach them to their copies of this dispatch.</p>

SUBJECT: Semen Spiridon PGORILYI also known as Semen PGORILIW

1. Reference is made to previous correspondence from this office regarding the Subject and to your file number 105-63295.
2. An official French liaison source reported in early September 1961 that Antin NYCZPDRUK received a letter with the return address: (fmu) DIALNAWSKY, 63/N. 7 SA. (sic) Philadelphia 23, Pa. The address was also received from an official U.S. source as 13/N 7 SA. but this is believed to be a typographical error. It has not been possible to verify the address as the envelope was not photographed but was passed routinely from the post office to NYCZPDRUK. The letter was not tested for secret writing.
3. The files of this Agency contain no identifiable information on DIALNAWSKY. It is possible the address should be 631 North Seventh Street, Philadelphia, which is the one used by PGORILIW. According to information from your Bureau, this is the home of Dymto WASYLASZUK, Secretary of the Ukrainian Workingmen's Association and the residence may be used for meetings of that organization.
4. We would appreciate any information in your files on DIALNAWSKY.

We passed on your request concerning Subject to the local chief of GSF. He checked his files and found no traces. He suggested that the old IRO files might have something. Checks of these files are normally done by a local investigator of GSF. We request permission to bury Subject's name in a short list of names which the local investigator would then be asked to check in the old IRO files. Also, please indicate whether we should try to check this out through GSF/RCY-1, who presumably would check with the Salzburg police.

Chief of Base, Salzburg is requested to check USRP and any other appropriate files on Subject of reference (a copy of which is herewith attached for Salzburg). The principal object of this exercise is to determine whether the person shown in the attached photograph is identical with Subject. As a minimum please ascertain the addresses at which Subject lived in Salzburg from 1945 to 1950. Depending on what you find, we can then derive some unilateral method of confirming the identity of the attached photo.

1. Representatives of the FBI Laboratory have been previously briefed on the KEMOTE TEST which we believed had been used when working on the MCGRILLIN letter and which established the presence of S. on the letter.
2. We have now been advised by a field representative that a modified version of this process was actually used and it is possible that the S. is detectable by this version of the test, but not by the regular test of which your Bureau has the details.
3. It should be noted that our work on known systems revealed two cases exhibiting the same type of fleeting detection as was noted on the MCGRILLIN letter. This, of course, does not mean that the MCGRILLIN letter is written in one of these systems, but merely that fleeting detections can occasionally be expected with this variation of the KEMOTE TEST.
4. Agency headquarters laboratory has not completed a comparison of the original and modified KEMOTE procedures so as to confirm the finding of our field laboratory that the modified test is more sensitive. It is being provided to your Bureau at this time, however, since it is a technique which has been used successfully in a current case.

REFERENCE(S)

1. Attached is a photograph of Semen POHORILIV, which we would like shown, without name, to appropriate unilateral sources for possible identification.

2. PYL: POHORILIV's name appears as the sender of a letter containing secret writing to Austin NYCZYPOURK in Paris, France. The letter was sent in care of Daytro (NYP), another Ukrainian resident of Paris. NYP, in November 1960, asked AMOGNA/1 to deliver the letter to NYCZYPOURK who was confined to a dental sanitarium near Paris. NYP told AMOGNA/1 that he (NYP) and NYCZYPOURK had been involved with Vasiliy KAZATCHEKO (Soviet assigned to UNESCO and the case officer of the arrested emigre Grigoriy DMITRIEV), and therefore NYP feared coming to the attention of the French police by delivering the letters to NYCZYPOURK. NYCPA analysis revealed the presence of the s/w in the letter from POHORILIV, but failed in attempts to develop the s/w. COB/VE and Paris Station are now investigating this case; therefore, in your reply please send an information copy to Paris.

3. The following is biographic information on Semen POHORILIV.

MEMORANDUM FOR: Director
Federal Bureau of Investigation

SUBJECT: Semen Spiridon POGORILYJ aka POGORILIY
Internal Security - R

1. Reference is made to memorandum from this office, CSCl-3/764,636 of 24 April 1961, and to your memorandum of 3 May 1961, file number 105-93295.

2. As reported in referenced CSCl memorandum, a letter purportedly from Subject was tested for secret writing. Secret writing was seen by one technician and its presence confirmed by another technician. However, the message had disappeared before a third technician could observe it. The technician who tested the letter has said that only one line of hand-printed secret writing was distinctly visible. There were traces of S/W on other parts of the letter but this was very indistinct. The cover letter was in longhand. The disappearance of the writing did not permit photography or recording of any part of the S/W message.

1. In answer to our request of ODENY to compare the handwriting of Semen POGORILIN with that attributed to him in the letter to Antin MYCZYPORUK, ODENY has informed us that at this time they do not have sufficient specimens of POGORILIN's handwriting to reach any conclusion.

2. ODENY has furnished us with the attached photograph of Semen POGORILIN. We suggest that this photograph, unidentified, be shown to AEDOGMA/1 for possible recognition. We are sending this photograph to MOB, also, for showing to appropriate sources.

1. Reference is made to your memorandum of 28 February 1961 on Subject.
2. We plan to discuss with French liaison the receipt by Dmytro GORYP and Antin NYCZIPORUK of the letter containing secret writing from Subject, who will be identified to the French only as a resident of the United States. We believe such a discussion is desirable in view of its pertinence to the current investigation of the intelligence activities of Vasiliy MYAKUSHKO (member of the Soviet delegation to UNESCO from April 1957 to August 1960). If such a discussion would adversely affect your interest in POHORILY, please advise us as soon as possible.

SUBJECT: Semen POHORILIV 301-289249

1. Reference is made to the following correspondence:
 - a. Bureau report of 14 February 1961, made at Philadelphia, Pennsylvania, and Subject as above;
 - b. Memorandum from Deputy Director (Plans), Subject as above, dated 9 January 1961, and numbered CSC 1 - 3/763,211;
 - c. CIA Teletype, Subject as above, dated 16 November 1960;
 - d. CIA Teletype, Subject as above, dated 17 February 1961.

2. We would appreciate being informed whether or not you have had an opportunity to compare the hand writing of Semen POHORILIV and that of the letter bearing his name and address, which we sent to you with reference 1.b..

3. In a review of our files we note that the lack of elaboration in our earlier correspondence might cause your Bureau some difficulty. Our statement in reference 1.c. that the POHORILIV letter bore indications of secret writing was based on the findings of our technical staff. One of our technicians applied a test that permitted him to see writing which, although it was not legible, could be seen to be other than that of the overt text. This writing remained visible long enough for another technician

to confirm its presence. There have been reports that our source is considered by the Soviets to be American controlled. Thus it was considered that, if this letter were a Soviet intelligence communication, it was likely the Soviets would consider the operation compromised when our source's possession of the letter was reported. For this reason, we decided it was best to forge a copy of the POHORILIW letter and make every attempt to develop any secret writing it contained. Unfortunately, we were unable to do so, and the original letter was destroyed in the process. As we reported in reference I.D. on 8 or 9 January 1961 our source delivered to Antin NYCYZPORUK the forged copy of the POHORILIW letter. To date there has been no report of any reaction to NYCYZPORUK's receipt of the forgery.

Dmitrio "GNYP, born 13 October 1898 at WASNICZU, Hungary - child of Wassile and JAZWINSKA Paraska, Ukrainian refugee, has lived for about the past twenty years at 211 rue de Beroy, Paris 12eme.

He has been employed, since 1945, as night watchman for the "Societe de Transports de Vehicules Automobiles", 60 rue St. Ferdinand, Paris 17eme.

His monthly salary is about 60,000 old francs.

From his first marriage, he had two sons, Baseli (36 years old) who lives in Poland and Lvibomir (34 years old) who lives in the USA.
Lvibomir

From his second marriage with Martha HASLY, born 9 September 1903 in Lwow Poland, he had a third son Jean, born 22 May 1940 in Paris (12th arrondissement) who chose a French nationality.

During the German occupation, GNYP who has been in France since 1925 went to work in Germany as a volunteer for the organization TODT. Returning to France in 1943 he worked until the Liberation as a chauffeur for the "Legion SPEER" at Enghien Les Bains.

In 1944, with the liberation, he was arrested and interned at Fresnes for collaboration, but this detention was not followed by condemnation.

In the milieux of Ukrainian refugees he is considered as an opportunist.

Antin *NYKYPORUK, born the first of January 1912 in Karkow (Ukraine), bachelor, has most recently lived at 86 rue de Montreuil-arrived in France in 1950.

He first of all was a manual laborer, and then an electrician.

Bothered with mental troubles, he has been interned since 1954 in various psychiatric hospitals.

His last stay was in 1959 at Villejuif.

Since his departure, his activity and sources of income have not been known because his unemployment payment has been refused by the "Bureau de la Main d'Oeuvre".

His ordinary resident's card has lapsed since 15 August 1960 and he is actually violating the law for Foreigners.
at present

It is a question of a violent individual when he has his mental crises.

On several occasions the police have intervened to control him before interment.

a. Dmytro CHYP was born on 13 October 1898 at Wasycyna Rohatyn, Western Ukraine. He is married and the father of two sons, one of whom repatriated to the Ukraine in 1948 and the other of whom lives in France and is a member of the Ukrainian nationalist organization - Spilka Ukrainskoji Molodi (The Union of Ukrainian Youth in France). CHYP's education consists of four years of elementary schooling in the Ukraine. In 1918 he served as a non-commissioned officer in the Ukrainian Army in a formation called the Sitsachovi Strilci. CHYP emigrated to France in 1925. He has been a member of two Ukrainian communist organizations in France; in 1927 he joined the Sojuz Ukrainskych Hromadien u Francji (Union of Ukrainian Citizens in France), and from 1945 to 1947 he was a member of the Rethkvtechyna (Rosseland). His address for the past two years has been 211 Rue de Bercy, Paris XIIeme.

b. Anton NYCZYPORUK (according to GNYP his true name is NYKIPORETZ) was born about 1910. He is married and had a wife and two children in Noginsk. Prior to 1944 he was a professor of Ukrainian and West European Literature at a pedagogical institute in Kiev. NYCZYPORUK left the USSR in 1944; from 1945 to 1948 he was in an International Refugee Organization camp in Salzburg, Austria; he has resided in France since 1948.

4. The following details on GNYP's and NYCZYPORUK's involvement with Soviet intelligence were obtained by our source from GNYP and other Ukrainian emigres in France. During the period 1958 to 1960 GNYP and Vasiliy MYAKUSHKO, Third Secretary of the Soviet Delegation to UNESCO, frequently visited with each other at the Soviet Embassy and at GNYP's apartment on 211 Rue de Bercy. At the end of 1959 GNYP introduced NYCZYPORUK to MYAKUSHKO. MYAKUSHKO asked NYCZYPORUK to contribute literary articles to Soviet publications; it is not known whether NYCZYPORUK wrote any such articles. Early in 1960 NYCZYPORUK developed a persecution complex and was confined to a sanitarium for a short period. GNYP, fearing that NYCZYPORUK might expose the GNYP-MYAKUSHKO relationship, provided NYCZYPORUK with free board and lodging in his apartment and with spending money. MYAKUSHKO dropped NYCZYPORUK as soon as the latter's mental condition became obvious. In May 1960 the Soviet Embassy advised NYCZYPORUK to repatriate to the USSR as soon as possible, and offered to help locate his family in the USSR. (As you already know, in October 1960 the Soviets sent NYCZYPORUK a letter reporting his family was not in Noginsk. See attachment.)

5. There is a rumor in the Ukrainian emigre colony in Paris that NYCZYPORUK has been a Soviet agent since about 1949. This is based on his close relationship with Josef (aka Oayp) KOZAK since 1949. KOZAK moved to France from Munich in 1946. Until his expulsion in 1950 he was quite active in the Organization of Ukrainian National/Bander (OUN/B) in France. He was ousted from the OUN/B because of his excessive curioscity about OUN/B members and their relatives in the USSR. Subsequently it was learned that KOZAK was in contact with the Soviet Embassy in France. KOZAK is presently residing at 26 rue Gaston Jaillon, Vesinet Chalette, Loiret.

1. SKOWAK, a friend of Anton HUCYPOURK (see OPIA-55824, 23 November 1960), is a West Ukrainian of about 30 years of age. He arrived in Paris just after World War II and was engaged as the A CIA/ATIN/3 operative in France, since he has been involved in this activity in Munich until 1956. As an intelligent man, gymnasium graduate, and student of political economy at the University of Nancy, SKOWAK was able to learn all A CIA/ATIN secrets.

2. SKOWAK came into contact with Anton HUCYPOURK in 1950 and they became fast friends. Ivan HUCYPOURK is convinced that SKOWAK was already then a Soviet agent and made contact with SKOWAK on his instructions. When HUCYPOURK and others noticed that SKOWAK frequently made critical remarks about A CIA/ATIN activity, displayed excessive curiosity about various A CIA/ATIN members and their relatives in the USSR, they became suspicious of him. He was removed from his job and strictly isolated from A CIA/ATIN activity in 1950. When the suspicions were born out when it was learned that SKOWAK had contact with the Soviet embassy. He has subsequently maintained his contact with HUCYPOURK.

3. SKOWAK is now living at 26 rue Gaston Jaillon, Vesunes Chalette, Loiret, where there is a rather large Ukrainian colony.

Attachment to ENR-15927
dated 22 November 1960

SUBJECT: Report on Testing of Letters for SW

REFS: (1) OFFA-55220, 4 November 1960
(2) ENR-15921, 8 November 1960
(3) FRAN 7383

1. The purpose of this report is summarize the laboratory work done on two letters transmitted to us originally as attachments to Reference #1. For identification purposes in this report we shall refer to the letter postmarked in Philadelphia as Letter #1 and the one postmarked in the USSR as Letter #2.

2. In order to facilitate a better understanding of the results some interpretative data on the tests performed is included.

3. Because of the requirement that the letters be left in good condition to permit their delivery to the addressee, the initial examination consisted of the customary visual and U.V. inspection (including long wave and short wave), and the so-called KEMFOTE test. This latter test has only recently been introduced and constitutes the most formidable test known to us against SW. It was by means of this test that the presence of SW in letter #1 became apparent. In the application of this test a portion of the SW is actually physically lifted from the item being tested and subsequently through a process involving both chemical and physical reactions, the SW is made visible. The degree of visibility varies from completely negative results to completely legible ones. According to the technician who performed this test the results obtained with Letter #1 were not quite legible, but definite enough to permit checking to establish that they were not due to the visible ink of the letter. The time interval during which this particular detection is observable lasts but a few minutes which the technician used to verify that he was detecting SW and not visible text. By the time he called in his two colleagues the reaction had progressed to the point that only one of these technicians was able to observe the SW. Thus the operator and one other technician saw the SW.

4. At this point the letters were returned to Paris with Reference #2 which reported "definite traces of SW" in Letter #1.

5. Before giving an account of the work done during the second phase of the investigation, (i.e., after the letters were returned to the laboratory for development) it should be pointed out that the KEMFOTE test, though an extremely effective test for the detection of SW, does not identify the system involved. Complete development of the secret message under these circumstances would have been almost impossible. The only alternative available to the chemist, and the one he followed in this particular case, is to proceed with a series of chemical tests applied directly to the document under investigation. These tests are applied in sequence, one after the other, each requiring for its execution that a portion of the page be sacrificed. It is therefore important that those tests affording the greatest probability of developing the SW be applied first; thus if and when, a test is found capable of developing the ink, the remainder of the page (i.e., the portion not affected by previous chemical applications) is treated with it.

SUBJECT: Report on Testing of Letters for SW

Confidential

6. In testing letter #1, the chemist chose to apply first those tests known to be effective in developing known ~~inks~~ (There are, however, FDI inks for which we have no known developer). After such tests were exhausted without yielding any detection the entire procedure with the application of other tests. In all a total of 20 different chemical tests were applied. No additional ones were used since no more area was left on the letter to apply ones.

7. None of these tests yielded even a trace of SW. These results appear to contradict the report initially sent with Reference #3. They should not be so interpreted. We still believe that Letter #1 contained SW, our failure notwithstanding.

8. As previously reported, Letter #2 was not treated, for reasons given in Reference #3. A facsimile of Letter #1 was made before undertaking its chemical treatment. The facsimile was checked by a competent linguist and authentication specialist and found satisfactory.

9. FBI: Any information concerning the KEMFOLE test, including its existence, is considered extremely sensitive and should be so treated.

Дорогие Аугуст!

Задумывал ли я сюжет сюжета. Или Годин, что ты зовешь панасом на коньках горных? Куда речь? Ты зовешь сюжетом панасом из горы Фини, или это я купил недорогое, или что-либо такое же сюжет?

Задумывал ли я, что я зову панасом ик там есть в этом балете. А все-таки, скажи себе, будущий горный панас, погребенный, ли там эскапером, погребен ли? Или есть иначе сюжет панаса? Но как же это звучит в романсе? В этом случае есть ли еще панаса звучит? Хорошо ли сюжет панаса погребен?

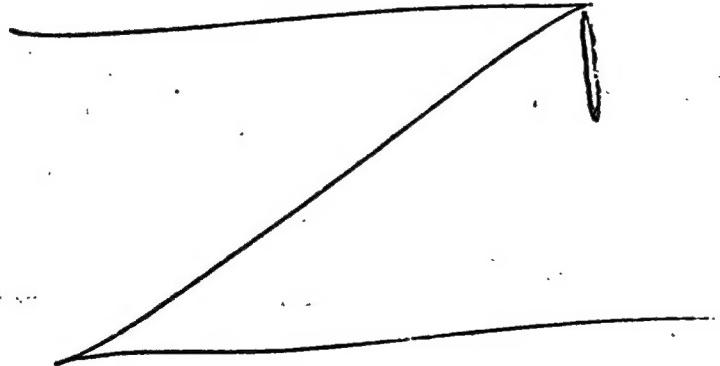

В Чехии пригласили меня: я буду выступать на концерте в Праге.

Однако звучит сюжет панаса
трудно. Но лучше в этом случае
они панас, что будет погребен, что не
погребен. Сперва звучит панас
и панас, что погребен в коньках на коньках
и погребен звучит. Их звучит панас.

MEMORANDUM FOR: CI/OQ/SOV/SAT
From: SR/2/CE/Rita L. Perkins
Subject: Outline Communication re POHORILIW Case

1. OFPA 55220, 4 November 1960
Request to MKTOPAZ to analyze letters
2. EGTA 15911, 8 November 1960
MKTOPAZ reply that POHORILIW letter bore definite traces of S/w.
3. PARI 2339, 10 November 1960
PARI STA informed Hqs of AEDOGMA/1 receipt of letters, relay to MKTOPAZ, latter's reply, and asked for guidance
4. OUT 92770, 16 November 1960
INFO PARI 2339 relayed to FBI; long delay in informing FBI because cable came in on Thurs evening and not given to c/o until 14 Nov. Dr. REED consulted 14 Nov re the wording "definite traces" and advised could not elaborate until MKTOPAZ report came in.
5. OUT 92118, 14 November 1960 To Pari
Stated HQS opinion prime concern was to determine if POHORILIW involved RIS and directed PARI to return letters to MKTOPAZ and that the latter attempt to develop the S/W.
6. OFPA 55369, 16 November 1960
PARI returned letters to MKTOPAZ per para 5 above.
7. 7. PARI 2426, 18 November 1960
Refed 6 above; directed MKTOPAZ to make forged copy of POHORILIW letter and then attempt develop S/W
8. FRAN 7364, 18 November 1960
MKTOPAZ reminds PARI letters will be destroyed in development attempts Holding action till Pari advises.
9. FRAN 7388, 19 November 1960
MKTOPAZ reports efforts to develop S/W failed.
10. EGTA 15915, 20 November 1960
MKTOPAZ returned letters to PARI; full report on examination will follow.
11. EGTA 15927, 22 November 1960
MKTOPAZ report in full. My copy does not indicate date arrived in HQS, but believe c. 1 December; at this time in telephone communication with DR. REED who advised S/W detection made by new sensitive method, that FBI lab aware of this method, and he would be responsible for relaying this info to FBI.

12. DBP 63039, 22 November 1960
Made reference to our teletype; said had no info persons involved; investigating POHORILIW, desired any further info we cld develop.
 13. PARI 2579, 30 November 1960
Letters given to AEOGVA/l to deliver to NYCZYPORUK; and since POHORILIW letter bore definite S/W trace asked for further guidance
 14. OUT 50208, 6 December 1960
Relayed para 12 ODENWY reply; and advised only PARI action for time to report delivery letters to NYCZYPORUK and UNNEAVE traces.
 15. OFPA 55817, 7 December 1960
Relayed additional info on NYCZYPORUK - his relationship with Jozef KOZAK.
 16. OFPA 55524, December 1960
Transmitted to HQS facsimiles of letters involved, and bio on GNYP and NYCZYPORUK.
 17. CSCI 3/763,211, 9 January 1961
relayed info and letters cited para 15 and 16 to FBI
 18. PAII 3664, 16 February 1961
Informed HQS letters delivered to NYCZYPORUK 8 or 9 January 61; and that N evidenced no reaction when opened letters; N said considered cured by Doctors and only needs assured domicile to be released; also GNYP rumor that N intends to repatriate when released. PARI Sta asked for guidance.
 19. OUT 74849, 17 February 1961
relayed para 18 to FBI and asked if any action PARI would abet their investigation POHORILIW.
 20. Mrs. ROMAN telephoned interim reply to Perkins 20 or 21 February that FBI investigation delayed by incorrect address; unfortunately para 3 cable gave address as 613 N 7th whereas letter stated 631 N 7th, cf. para 16 and 17.
 21. Mrs. ROMAN telephoned Perkins 27 February 1961 and reported FBI did not have report on S/w aspects. Perkins called Dr. REED and was told that this info had been passed to William Magee, Chief of FBI lab about 1 December 1960 and that Dr. REED in speaking to Mr. Magee had cited our teletype OUT 92770 and the name POHORILIW; further he would call Mr. Magee and remind him of same.
 22. I believe Mr. Magee and Dr. REED spoke on the matter 28 February (I was absent from office on 28 Feb and 1 Mar) but I spoke to Dr. Reed on 2 March 1961 and he assured me now remembered matter.
